A VISUAL BOOK ON ELEVATING  
LIGHTS EXPERIENCE

PRESENTED BY

**THREAD  
TRIBE**

*Light that feels like design.*

## Who We Are

**ThreadTribe is where design meets light.** We create sculptural 3D-printed pieces that turn everyday spaces into experiences.

## What We Make

From unique lamps to minimal vases and desk accessories, each piece is crafted using eco-friendly plant-based materials and precision 3D printing. This allows us to create designs that are distinctive, functional, and unlike mass-produced decor.

## Why It Matters

**Because your space shouldn't feel ordinary. It should feel you.**

Great design should be accessible, expressive, and thoughtful. Every product reflects our commitment to innovation, sustainable craftsmanship, and modern living.
